

CRISTIAN MEDINA

GAME DEVELOPER & COMPUTER ENGINEER

cmedina270793@gmail.com • (+58) 424-379-3710 • Turmero, Aragua, Venezuela • [linkedin.com/in/cristian-medina-256140b5](https://www.linkedin.com/in/cristian-medina-256140b5) • waunman.itch.io • nabos.io

PROFILE

I'm a Unity Game Developer and Computer Engineer with experience leading the development of gameplay systems, tools, content integration, debugging, and team coordination across video games and interactive applications. My background includes Unity, C#, Python, Blender workflows, and cross-functional production in remote team environments.

I have worked extensively with Unity, contributing to gameplay systems, scene construction, level content, pipelines, and front-end development. I've also collaborated across areas such as audio/visual integration, 3D asset production, testing, and release workflows. In addition to game development, I have experience with Python, FastAPI, PostgreSQL, e-commerce platform integrations, and CI/CD pipelines, which gives me a broader engineering perspective when building tools and connected systems.

I'm especially interested in Unity game development roles focused on gameplay systems, tools, interactive experiences, and technical production. I also enjoy participating in game jams, building 3D content in Blender, and exploring computer graphics.

SKILLS

Game Engines: Unity · Game Maker · Unreal

Languages: C# · Python · HTML · CSS

Game Development: Physics · Content Integration · Debugging · Development Testing · Mobile Development · Mobile Optimization

Backend & Platforms: PostgreSQL · FastAPI · CI/CD · Magento · Bigcommerce

Assets Tools: Blender · Substance Designer

Collaboration & Production: Git · Jira · Kanban · Notion · Agile Development

LANGUAGES

Spanish *Native*

English *Full Professional*

EXPERIENCE

Nabos Studios

July 2024 – Present

Lead Developer & Co-Founder - Self-employed

Venezuela (Remote)

- ▶ Led development for Jason Maxx by coordinating a 5-person team across programming, content production, and implementation to keep gameplay, content, and delivery aligned.
- ▶ Developed gameplay mechanics and core systems in Unity for Jason Maxx, showing direct ownership of core game functionality.
- ▶ Built and integrated 3D environments using Blender and Unity workflows.
- ▶ Created and integrated textures, materials, audio, and visual assets into the project pipeline.
- ▶ Configured scenes, physics, scripts, and gameplay content for production ready levels.
- ▶ Defined team workflows, production pipelines, and task planning to support development progress across a 5-person team.
- ▶ Contributed across technical and creative areas as needed to move the project toward completion.

Designaar Ltd

August 2020 – June 2024 (3 years 11 months)

Full Stack Developer - Full Time

United Kingdom (Remote)

- ▶ Developed an interactive Unity-based 3D editor for kitchen space design.
- ▶ Built and maintained backend services using Python, FastAPI, and PostgreSQL to support the Unity-based 3D editor and connected workflows.
- ▶ Integrated new functionality into BigCommerce and Magento platforms.
- ▶ Developed internal tools for bulk data management and operational workflows.
- ▶ Configured and maintained CI/CD pipelines for deployment and delivery across the platform, strengthening release workflow reliability.
- ▶ Contributed to both front-end implementation and backend system integration across the platform.

Learn Safari

September 2020 – December 2024 (4 years 4 months)

Unity Developer Supervisor - Contract

Australia (Remote)

- ▶ Supervised the Unity development team for Spanish Safari and English Safari, overseeing delivery for educational game products across multiple releases.
- ▶ Managed team goals, task planning, and delivery for front-end Unity development work to keep feature execution and priorities aligned.
- ▶ Oversaw implementation quality, debugging efforts, and testing workflows.
- ▶ Helped coordinate development priorities to support feature completion and product stability.

Learn Safari

January 2019 – August 2020 (1 year 8 months)

Lead Unity Developer - Full Time

Australia (Remote)

- ▶ Led Unity development for the educational games Spanish Safari and English Safari.
- ▶ Developed gameplay features, mini-games, and supporting tools for the development team.
- ▶ Built scenes and 3D environments used throughout the applications.
- ▶ Maintained and expanded existing project codebases in Unity.
- ▶ Supported debugging, testing, and feature implementation across multiple areas of the products.

Learn Safari

March 2016 – December 2018 (2 years 10 months)

Unity Developer - Full Time

Australia (Remote)

- ▶ Developed interactive content and mini-games in Unity for Spanish Safari and English Safari.
- ▶ Built scenes and 3D environments used in the applications.
- ▶ Maintained existing systems and supported feature expansion.
- ▶ Performed debugging and testing to improve product quality and reliability.

EDUCATION

Bachelor's Degree in Computer Engineering

2010 – 2018

University Simon Bolivar

Caracas, Venezuela
